二、人物类

P1 · 26 岁的 AI 创业者

关键词

- a twenty-something founder
- pitched at a whiteboard, no slides
- ten minutes, everyone understood

- computing-subsidy review meeting
- an open-plan floor shared by fifty start-ups
- answered the hardest question first
- calm about risk, specific about money

待补：他的产品方向（一句话）。

加分表达

- `He explained something complicated without making anyone in the room feel stupid.`
- `What struck me wasn't the idea — it was how relaxed he was about failing.`
- `He talked about failure as a schedule, not a disaster.`
- `He disagreed with people without making it personal.`
- `That was the first time I saw a company as a series of decisions rather than a fact.`

三、地点类

L1 · 威尔士书镇 Hay-on-Wye（未去过）

题目：a place you would like to visit / a quiet place / a place you would recommend

关键词

- a small town on the border of Wales and England
- about two thousand residents, around twenty bookshops
- grey stone, narrow streets, permanent drizzle
- an honesty bookshop inside a castle ruin — shelves outdoors, an iron box for coins
- a cinema in an old chapel
- one shop selling only maps, another only poetry
- a literary festival every May, tens of thousands of visitors
- I have only seen it in a documentary

待补：你想去的具体理由（一句话，例如「想闻旧纸味」）。

加分表达

- `Twenty bookshops for two thousand people — the maths doesn't work, and that's the whole point.`
- `You take a book, and you put the money in an iron box, and nobody checks.`
- `It's the kind of place that makes you lower your voice without being asked.`
- `It looks like a town that decided to stop competing with the rest of the world.`

- `I've never stood in it, and that's exactly why I keep describing it.`

四、事件类

关键词

- December 2024 to June 2025
- five students, very different levels
- fine-tuned BERT-wwm-ext on Chinese reviews
- Flask API, Bootstrap front end, Docker
- noisy labels: two people reading the same comment, disagreeing

- two weeks arguing about labelling rules
- re-labelled a subset, added data augmentation
- final presentation: juniors explained their own code

待补：准确率前后两个数字。

加分表达

- `Half my job was technical, and the other half was just people.`
- `The hardest decision wasn't which model to use — it was admitting the data was the problem.`
- `We spent two weeks doing something that felt like nothing: arguing about labels.`
- `We didn't fix the model first; we fixed the labels.`
- `I stopped being the person who wrote the most code and became the person who unblocked everyone else.`
- `What I'm proud of isn't the accuracy. It's that the youngest member could explain the architecture without me.`

五、物品类

O1 · 跑模型的那台旧笔记本（使用角度）

题目：a piece of technology you use often / something you fixed / something you would hate to lose

关键词

- a second-hand laptop, bought before the project started
- a dent in one corner, a club sticker on the lid
- the fan went up an octave the moment training began
- ran eleven hours straight, twice, and survived
- battery dead by the third month, permanently plugged in
- carried it to every meeting, weighed down by the charger
- it ran the final demo in front of the class
- still on my desk, still working

待补：价格或使用年限（两个数字）。

加分表达

- `You could hear it thinking — the fan told you when the model was actually learning.`
- `It's not an expensive machine; it's just a machine that refused to give up.`
- `Five people pushed it to its limit for six months, and it never once lost my data.`
- `The sticker on the lid is the only decoration, and the only proof it's mine.`
- `Throwing it away would feel like deleting the project.`

G1 · 那台笔记本（礼物角度）

题目：a gift you received / something expensive you own / something you use every day

- a laptop, given to me before university started
- not the newest model, but chosen carefully
- the moment it was handed over, still in the box
- a dent in one corner now, a sticker on the lid

待补：谁送的 + 大概价格或那年型号。

加分表达

- `It's the most expensive thing I own and the least interesting thing I own.`
- `Everything I've built in the last two years went through that keyboard.`

- `I'd rather repair it than replace it, and I know that's not rational.`

十、覆盖率与缺口

已覆盖方向

素材	覆盖方向
P1	敬佩的人 / 成功的年轻人 / 想见的人 / 擅长工作的人
L1	想去的地方 / 安静的地方 / 推荐的地方 / 喜欢的建筑
E1	做过的项目 / 带领团队 / 引以为豪 / 难做的决定 / 忙碌的一段时间
O1	常用科技产品 / 修过的东西 / 舍不得扔的东西 / 重要的物品
G1	收到的礼物 / 贵重物品 / 每天用的东西
T1	童年记忆 / 长期坚持 / 家人支持 / 早年学到的技能
F1	喜欢的电影 / 印象深刻的故事 / 想推荐的作品
M1	一首歌 / 勇敢的一次 / 快乐记忆 / 有意义的音乐
R1	一条规则 / 一项法律 / 责任 / 工作中的规定

仍然覆盖不到的题型

缺口	典型题目	处理方式
自然与环境	a place in nature / an environmental problem	可用 L1 的「雨、石墙、山谷」过渡，但容易显得假
动物	a pet / an animal you like	需要补一句真实经历
食物与商店	a meal you enjoyed / a shop you like	可与 L1 的书店勉强衔接
交通与延误	a journey that was delayed / a time you were late	需要补一件小事故
运动与健康	a sport you play / a healthy habit	T1 可勉强用「熬夜做题」，方向不对
一次争吵	an argument with a friend	需要补一句真实经历

结论：九个素材大致覆盖季度题库的八成。追求百分之百覆盖意义不大——Part 2 允许合理迁移，考官看的是你能不能把一件事讲清楚。

十一、使用要点

1. **一个素材只保留一个主角度**，其余角度准备到「能接住追问」为止，避免九个答案讲成同一套话。
2. **事件类讲「决定」，物品类讲「处境」**：同一个 BERT 项目，事件问你做了什么选择，物品问你为什么还留着它。

3. **每篇固定两个数字**：两千人、二十家书店；十一小时、六个月；八岁、三年——开场就说出来。
4. **每题只改三处**：开场句扣题目关键词、结尾扣题句、一到两个例子。中间细节不动。
5. **不要背全文**。背全文会变成朗读，流利度分数反而下降。只背骨架和五个细节词。

十二、待补清单

编号	待补内容
P1	创业者的产品方向（一句话）
L1	想去的具体理由（一句话）
E1	准确率前后两个数字
O1	价格或使用年限（两个数字）
G1	谁送的 + 大概价格或型号
T1	第一次参赛年龄 + 最好名次
F1	第一次观看的年龄与同伴
M1	具体时间与地点
R1	一次差点越界、最后停手的时刻

补齐这九条，每篇答案就能从「能讲」变成「有记忆点」。

本文档基于个人简历中的真实经历整理；地点类为虚构设定，音乐类涉及私人关系，可按需替换。
